Insulated Double Drawer Unit with Single Front

Distributed by Evo, Inc.

For Cold or Hot Storage

Hermetically Sealed Enclosure

Top Quality Materials for Long Life

- Double drawer unit with one single insulated front and 304 stainless steel drawer face.
- Integrated pan, and heavy-duty rails with acetal resin rollers.
- Watertight composite enclosure.
- Easily removed drawer provides convenient loading and cleaning.

Insert Food Containers To Drawer Pan for Hygiene and Safety

- Integrated stainless steel pan supports one Full Size Pan (1/1), or half, third or fourth pans.
- Use with ice to keep foods cold, or with hot water to keep foods warm.

Professional Design

- Multiple styles of door and drawers allows designers to quickly construct quality NSF foodservice counters.
- For indoor or outdoor use.
- Convenient and fast Installation.

SHORT FORM SPECIFICATIONS:

Self-contained, NSF certified, double-drawer with single front in insulated cabinet. Single 304-stainless steel insulated face measuring 25.74" x 16.25" is mounted to a bottom positioned full-size 8" depth hotel pan with 304-stainless steel tracks and acetal resin rollers. Drawer face has a replaceable magnetic gasket providing a hermetic watertight seal. A second top positioned full-size 8" depth hotel pan is integrated to independent full length 304-stainless steel tracks and acetal resin rollers. An insulated external jacket made from high-strength composite allows easy installation to indoor and outdoor kitchen cabinet installations.
