

EVENT™ FILTRATION SYSTEM MAINTENANCE

HOW TO MAINTAIN OPTIMUM PERFORMANCE WITH YOUR EVENT VENTLESS GRILL!

Your Evo EVent™ Ventless Grill is built to last. Cook anywhere without the restriction of an overhead hood! To keep your EVent operating at maximum efficiency it is important to understand and properly care for the EVent filtration system.

The EVent™ Ventless Grill has an advanced four stage air filtration system with three metal filters and a replaceable activated charcoal filter. **All of the metal filters are washable in a commercial dishwasher, or 3 bay sink.**

EVENT™ METAL FILTERS - WASH WEEKLY

STAINLESS STEEL GREASE FILTER CAPTURES GREASE AND AIRBORNE VAPORS

ALUMINUM MESH PRE-FILTER CAPTURES AIRBORNE FOOD PARTICLES

ELECTROSTATIC PRECIPITATOR (ESP) EXTRACTS AIRBORNE GREASE & SMOKE PARTICLES

EVENT™ DISPOSABLE CHARCOAL FILTERS - CHANGE OUT EVERY 2-3 WEEKS

The EVent™ Disposable Charcoal Filter mitigates odors. To maintain maximum efficiency of your EVent™ grill this filter should be changed out every 2-3 weeks depending on your usage and menu plan. A dirty charcoal filter will degrade the efficiency of your grill and no longer provide maximum odor abatement.

A CHARCOAL FILTER LONG OVERDUE FOR A CHANGE OUT. GREASE BUILDUP CAN RESTRICT AIRFLOW AND NEGATIVELY IMPACT THE EVENT™ OPERATING EFFICIENCY!

EVO'S FILTER AUTOSHIP PROGRAM MAKES IT EASY!

The charcoal filter is the only consumable in the grill and Evo offers the best pricing direct to our EVent™ users. Our auto ship program allows you to schedule filter shipments at annual, semi-annual or quarterly intervals – the schedule that suits you best! Filters are in stock and will usually ship within 48 hours of order receipt.
